

Nerve Slavery

It is present-day conditions—bearing burdens of work upon the nervous system that tells the story—premature breaking up of health.

It tells why so many men and women, who so far as age is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

- Throbbing, palpitating heart.
- Sleepless nights.
- Sudden startings.
- Morning languor.
- Brain fog.
- Inability to work or think.
- Exhaustion on exertion.
- Flagging appetite.
- Digestion slow.
- Food heavy.
- Easily excited, nervous, irritable.
- Strength fails.
- Loss of flesh and muscular power.
- Settled melancholia.

GIGANTIC SCHEME

National Defense Fund Proposed to Aid the Striking Miners.

THE PUBLIC IN GENERAL

Will Be Asked to Contribute to a Fund to Be Established by Organized Labor.

Latest Proposition Placed On Foot to Help Striking Anthracite Miners.

Wilkesbarre, Pa., July 9.—A national defense fund to which all organized labor and the public in general will be asked to contribute is the latest proposition placed on foot to help the striking anthracite coal miners if they need assistance in their struggle for higher wages and a shorter work-day. Harry White of New York, Secretary of the National Garment Workers' and member of the conciliation committee of the National Civic Federation, had a long conference with President Mitchell yesterday, during which the plan was approved by the miners' chief, and Mr. White will at once begin preparations to carry out the plan. President Mitchell wants it understood, however, that the miners' union will accept no aid until their own resources are exhausted. Mr. White came here authorized by several labor organizations to place the proposition before President Mitchell. After the conference President Mitchell had nothing to say about the matter beyond the brief statement that he approved of the plan. Mr. White gave out the following statement:

"President Mitchell will accept the co-operation and whatever aid may be rendered by labor organizations of the country and others, but with the understanding that it is to be only used when their own funds become exhausted, which will not be for some time. Mr. Mitchell says that before soliciting outside support the miners at work must set the example themselves by contributing a considerable portion of their earnings to sustain their fellow-members in the hard coal fields who are fighting their common battle. This will be determined upon at the Indianapolis convention. Mr. Mitchell also welcomed the aid tendered by men of means and influence outside the ranks of organized labor.

"Efforts will also be made to originate a movement throughout the country so that the unions and others may be prepared to collect funds when the time is propitious. Public men will also undertake an independent movement and solicit subscriptions from those not connected with labor organizations. This movement will be inaugurated in New York city, and the labor organizations and sympathizers in all the principal cities of the country will be called on to appoint committees to carry on similar work.

"All friendly newspapers will be asked to co-operate. The scheme, in brief, contemplates the concentration of the energy and resources of organized labor in behalf of the miners' cause, a result which has never before been achieved. It involves the raising of a given amount of money each week with which provisions and other necessities of life will be purchased. The plan has the approval of President Samuel Gompers, and it will be placed before the executive council of the American Federation of Labor for endorsement at its session in San Francisco next week.

DIED TOGETHER

Consists With Suicidal Mania Accomplish Their Desire.

Hinton, W. Va., July 9.—William Mahan and Charles H. Blauer, two prominent farmers of Sweet Springs, Monroe county, committed suicide by shooting themselves. It appears that they before threatened to kill themselves and were being closely watched by their relatives. They left their homes yesterday with their guns and said they were going hunting. Their families thought but little of their going until they heard two gunshots. A search revealed the men. Mr. Mahan had evidently placed the muzzle of his rifle to his mouth and was dead when found. Blauer had shot himself through the breast with a breech-loading shotgun and was unconscious, but only lived a few minutes. Both men were 42 years old and cousins. They gave no reason for wanting to die.

Wedding In the Smart Set.

Lenox, Mass., July 9.—In picturesque Trinity Episcopal church, surrounded with lavish floral decorations and under fair skies, Miss Lela Van derbilt-Sloane, third daughter of Mr. and Mrs. William Douglas Sloane of New York and Lenox, and William Bradhurst Osgood Field of New York were married here yesterday. The assembly of guests, the accoutrements of the ceremony, the value of the wedding gifts, and the wealth and social prominence of all interested parties made the event the most magnificent of its kind that ever took place in the Berkshire country.

A Queen's Illness.

Brussels, July 9.—Marie Henriette queen of the Belgians, who has been ill for some time past at Spa, Belgium has suddenly grown worse and is in an alarming condition.

HANNA MAY COME

Indiana Republican Looking For the National Chairman.

Indianapolis, July 9.—The chances are that Senator Hanna will come to Indiana to make a number of speeches. It has been known for some time that efforts were being made to get him for a few speeches. Senator Beveridge extended a cordial invitation to him recently, and the state committee telegraphed Senator Fairbanks to invite him on behalf of the organization. Senator Fairbanks made the invitation as strong as possible. He thinks it likely that Senator Hanna will come, and Senator Beveridge says that while he cannot speak with authority for Senator Hanna, that he has hopes also that the national chairman can find time to spare to Indiana. Chairman Goodrich came over from Winchester yesterday and has been around the headquarters looking after a mass of correspondence that piles up as soon as he leaves town. At the committee rooms it was announced today that no word has been received from Senator Hanna as to whether or not he will be here to take part in the campaign. Many requests are now being made for him, but if he does come it will only be for a very limited number of speeches.

Fred Kimbley, who was appointed postmaster at Orleans, after a fight that attracted wide attention was here last night. He is a member of the crowd of politicians who drop into Indianapolis every few weeks to see that affairs are properly handled and then go back home to tell the boys how things are going. Kimbley is well known, having been chief clerk of the house during the session that elected Beveridge to the United States senate. The joint senatorial district of Orange, Lawrence and Martin counties to which he belongs has given the leaders of both parties considerable worry this year because of the different factions being unable to get together. The Republicans have nominated Charles Rogers of Shoals, former consul to Zanzibar, for joint senator, and Kimbley says he will be elected. The Democrats have nominated W. N. Matthews, a prominent oilite stone man at Lawrence, and they are confident he will win. The district promises to be one of the battlegrounds of the state this year, as both parties are bent on getting a senator from there.

Senator Albert J. Beveridge left at noon today for the west. It is understood that he is going to Idaho to spend a few weeks in the mountains. He will seek some quiet out-of-the-way place, it is said for the purpose of resuming his literary work, which has been interrupted by the active part he took during the last session of congress. During the last session Senator Beveridge became an almost inveterate smoker. But not many of his friends knew that he smoked at all until the story of his encounter with Senator Bailey came out telling how he smoked through it all. He says he was a hard smoker for a number of years while he was getting into the practice of law. He quit—made a vow to himself not to smoke for five years. He did not break his promise and was three months away when last winter he was induced by some of his friends at a dinner to start again. He kept on after the first cigar was lighted until now he has a cigar in his teeth considerable of his working time. He says he intends to swear off again for keeps.

Senator Fairbanks has been notified by the navy department at Washington that candidates for the Annapolis naval academy hereafter will be examined both on mental and physical points at the different civil service stations throughout the country. This will mean, it is presumed, that Indiana appointees will be examined in Indianapolis. It has been the custom to examine the candidates at Annapolis. The new rule will operate to the pecuniary advantage of the candidates, as it has been a costly experience for those who have gone to Annapolis for examination and then failed. A recent enactment of congress provided that each senator should name one candidate and five alternates. Senator Beveridge has already made his appointment. There promises to be a scramble for the places, and the offices of both senators are frequented with bright-faced, anxious young men who would like to get into Uncle Sam's navy.

SLOW WORK.

Canton, O., July 9.—S. Kayser, an employee of a local steel roofing plant of this city, and R. Bloch of Warsaw, Russia, have made four moves in a chess game which is expected to last five years. The game is being played by letter, and it requires about fourteen days for a letter to pass between Canton and Warsaw. The men are playing for a prize of \$5,000, offered by Charles Rosenblum, who is related to both of them.

Some Fast Going.

Springfield, Ills., July 9.—The fast mail on the Baltimore & Ohio Southwestern railroad made a record run yesterday from Washington, Ind., to East St. Louis, a distance of 165 miles, in 188 minutes, including six stops, which averaged five minutes each, making the actual running time 158 minutes. The train consisted of an engine and six coaches.

New Traction Company.

Princeton, Ind., July 9.—A new traction company to be known as the Jasper, French Lick, West Baden and Northeastern, has been organized. The capital stock is now \$100,000. It is soon to be made \$500,000. The incorporators are residents of this city.

STILL IN SUSPENSE

Seattle Serial From Every-day Life Is Reaching a Climax.

TRACEY HOTLY PURSUED

Oregon Desperado Now Has On His Trail a Thousand Armed Men With Bloodhounds.

This Is a Fair Indication That the Last Chapter Is Near At Hand.

Seattle, Wash., July 9.—Harry Tracey, the fugitive Oregon convict who has killed six men and wounded several others since June 9 is being hotly pursued by men and dogs in the country southeast of Seattle, and will probably be slain or captured within a few hours. His pursuers, who have with them two fine bloodhounds, are only a short distance behind him.

Tracey made another extraordinary escape from one of the posses after him yesterday afternoon. Word was received at the sheriff's office that Tracey had been at the house of a Mrs. Gerald near Renton for five hours. Fifty armed men at once hastened to the scene. When they reached the place they scattered and took positions so they could watch the house to the best advantage. The peculiar actions of Mrs. Gerald convinced them that Tracey was still in the house. On the arrival of Sheriff Cuddehe the posse closed in on the house, only to learn from Mrs. Gerald that Tracey had given them the slip. He had left the house by a rear door ten minutes previous while the posse was taking up their position to watch the place, hid for a few minutes in some of the bushes, and then quietly slipped away through the woods toward Palmer.

The wonderful nerve of the convict was never more fully exemplified than in this instance. In the back yard of the Gerald home was found Anderson, the man whom Tracey had kept a prisoner from the time he left Port Madison, tied to a tree. Tracey had tied Anderson to the tree while the posse was in full view of the house before making his escape. The bloodhounds were let loose on his trail and are said to be only a few minutes behind him. Fully a thousand armed men are now engaged in the pursuit, including a posse which has taken the train for Palmer to intercept Tracey in his flight toward Cedar mountain.

WITHOUT A MURMUR

Jessie Morrison Didn't Shed a Tear When Sentence Was Passed.

El Dorado, Kan., July 9.—The court yesterday passed sentence upon Jessie Morrison, convicted of the murder of Mrs. Olin Castle. A motion for a new trial, a motion in arrest of judgment, and a plea that sentence be postponed were successively overruled. Sentence was then pronounced upon Miss Morrison, who sat down without saying a word or shedding a tear. She was cool and self-possessed.

No emotion was displayed on the part of her father and brother, and after the judge had given the attorneys fifty days in which to file a bill of exceptions, Miss Morrison arose and followed the sheriff to her cell, accompanied by her father and brother. She passed from the room unmindful of the staring crowd. In the hall the aged father and brother sat down beside Miss Morrison on a bench and discussed the sentence. Miss Morrison said: "The judge has been against me from the first and was bound to convict me. I expected no mercy from him and did not get any mercy. I don't consider I had a fair trial, and believe the supreme court will again reverse the case." The Morrison case has cost the county \$12,000.

NOW IN THE HOSPITAL

Englishman Who Deserted "Old Glory" Now Wishes He Hadn't.

Boston, July 9.—Charles Roberts, an assistant steward on the Cunarder Saxonia, was fined \$10 in the East Boston district court yesterday on pleading guilty to a charge of deserting the American flag. Roberts, with two companions was enjoying the Fourth of July in East Boston and was somewhat intoxicated. At a hotel there while waiting to be served with refreshments, Roberts took a small American flag from his pocket and, after making some insulting remarks, tore the flag into shreds and threw them in the face of a stranger. Several of those present drove the three men into the street, where one Bostonian singled out Roberts and gave him such a beating that the latter had to cry for mercy and has since been confined to the hospital. Roberts is an Englishman.

A Hero's Homecoming.

London, July 9.—The program for the reception of Lord Kitchener upon his arrival from South Africa is similar to the one carried out upon the occasion of the homecoming of Lord Roberts, the commander-in-chief of the forces. After his elaborate welcome at Southampton Lord Kitchener is expected to reach London at noon of July 13.

GETTING TOGETHER

Railroads and Freight Handlers in Conference Today.

Chicago, July 9.—Through the efforts of Chairman Job of the state arbitration committee, a series of meetings have been arranged for today between the general managers of each of the roads and a committee of five men from the same line.

Chairman Job went to each railroad separately and asked the general manager if he would receive a committee of the strikers. In every instance he was informed that the committee would be received if it was understood that they came from the employees of the road and not from the freight handlers' union. Then Mr. Job reported to the men his success with the railroads and secured their consent to the meetings. It was arranged that each committee should consist of five strikers. These committees will not of themselves be empowered to settle the strike, and whatever the agreement may be if any agreement is reached at the meeting it will be reported back to the officials of the union for approval, and no action will be taken until it has the sanction of the officers of the union. Chairman Job says that he thinks he has inserted the entering wedge for the settlement of the strike.

A Month's Respite.

Springfield, Ills., July 9.—Governor Yates has granted a further respite until Aug. 11 to Louis G. Toombs, sentenced to be hanged in Chicago on a charge of murder. Toombs was recently found guilty of murdering a woman on board a boat in the river at Chicago, and sentenced to death. Governor Yates first granted stay of sentence until July 11, and he has now extended it until Aug. 11. Attorney Grove E. Walter of Chicago called upon Governor Yates yesterday in behalf of his client, and his request for stay of execution during which time an appeal to the supreme court will be taken, was granted.

Will Come Back Home.

Syracuse, N. Y., July 9.—The Rev. Dr. Charles N. Sims, pastor of the First Methodist church of this city, and former chancellor of Syracuse university announces that he will in the near future retire from the ministry and return to his old home at Liberty, Ind.

STATE NEWS NOTES

Incidents and Accidents and Doings of Note Throughout Hoosierdom.

A RECIPROCITY TREATY

Under Ruling of State Board of Medical Registration Indiana Physicians May Practice in Illinois.

This Will Give Illinois Physicians Similarly Qualified the Right to Practice in Indiana.

Indianapolis, July 9.—At a meeting of the state board of medical registration and examination held last night it was decided to enter into a reciprocal arrangement with the state of Illinois for the admission to practice in either state of physicians who have passed satisfactory examinations by either state board.

The rule will apply only to doctors who have passed examinations, however, and not to physicians licensed under the old laws merely upon diploma. Ohio has applied for such reciprocal relations with this state and the board has the matter under consideration. It will probably be acted on favorably, and in the end arrangements will probably be made whereby physicians who hold certificates from any state which has laws compelling them to pass examinations such as those required in Indiana may practice in any other state having such regulations.

RESCUED WITH DIFFICULTY

Kokomo Man Overcome By Gas In a Well Has Painful Experience.

Kokomo, Ind., July 9.—To satisfy his curiosity as to the depth of the water in a well, John Clubs attempted to explore its depths. When within seven feet from the bottom he was overcome by gas, and, losing his strength, fell to the bottom. He sank in waist-deep water. For forty-five minutes Clubs struggled to keep his head from sinking under the water. Finally, everyone finding it impossible to rescue him, the fire department was called. Four men descended into the well, and the gas was so strong that they were forced to turn back. Edward Floyd, a fireman, finally volunteered to go down after Clubs. Around his waist was bound a rope, and when the men pulled it up both the rescuer and the rescued were unconscious. Before being overcome by the gas Floyd had time to wrap the rope around Clubs. He was soon resuscitated. Clubs is in a serious condition, and his recovery is doubtful.

LIVE STOCK KILLED.

Shoals, Ind., July 9.—During a heavy rain and electrical storm the barn of Garrett McDermott, five miles north of this city, was struck by lightning. Four horses and four colts were killed, and the barn and farming machinery were burned, making a total loss of \$4,000, with no insurance. Much other damage is reported throughout the county.

IT WAS NO JOKE.

Alexandria, Ind., July 9.—Norman, the three-year-old son of F. L. Kerr of this city, while playing, inserted a buttonhook in his nose, losing hold of it, and the services of two physicians were required for a couple of hours before relief was obtained. The little fellow thinks it is a good joke, and is not injured by his experience.

A Woman's Suicide.

Muncie, Ind., July 9.—Ill and fearing that she would never be any better, though she had been assured that her illness was but temporary, Mrs. Dora Campbell swallowed two ounces of carbolic acid, and died a half hour afterward. She was but twenty-five years old, and had been married only a short time.

Child Choked to Death.

Crawfordsville, Ind., July 9.—Estelle, the little daughter of Mr. and Mrs. Byrn Hessler of Hillsboro, while assisting her mother to feed the chickens, began to eat the corn herself. A grain lodged in her windpipe, rendering an operation necessary. She died from the shock.

Will Try to Keep Cool.

Valparaiso, Ind., July 9.—The Presbyterians and Methodists have united in open-air meetings, which will be held on the Methodist church lawn during the heated term. The lawn resembles a summer garden, having fountains and flower beds, with drinking water tanks and plenty of shade.

Quarrel Ended Fatally.

Bluffton, Ind., July 9.—Mrs. Edward Haven of Mount Zion, after a quarrel with her husband, swallowed carbolic acid and died. She told her husband of her purpose before swallowing the fatal drug.

Charge of Forgery.

North Vernon, Ind., July 9.—Nelson Leonard has been committed to jail in default of \$500 bail to await action of grand jury on charge of forgery.

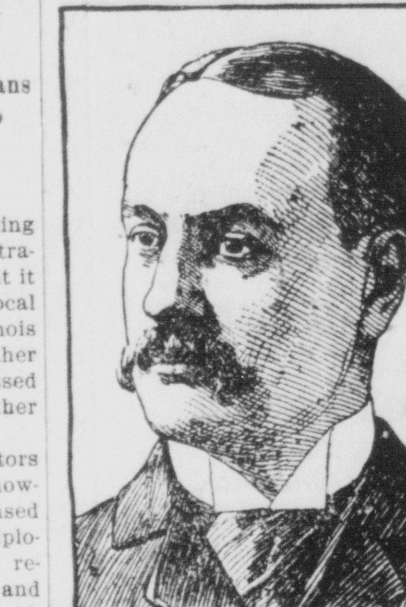

Killed By Lightning.

Sullivan, Ind., July 9.—Mrs. James Easter of Hymera during a storm was struck by lightning and killed.

LIKE AN ARMY

Twenty Thousand Teachers Gather At Minneapolis.

Minneapolis, July 9.—Minneapolis has within her gates 15,000 or more delegates to the National Educational Association convention. Some of the largest delegations arrived last evening, and the total will reach close to 20,000 if it does not exceed the 20,000 mark when all the delegates are in. The meetings yesterday were confined to the national council, the Indian department and the general sessions. Today the real work in detail is in progress.

NICHOLAS MURRAY BUTLER

The speakers at the different meetings of the convention are all men of widespread reputation. Men of letters and educational note, politicians, inventors, publishers, representatives of the church and the state and national government have places on the program. President Beard-shear has been taken to the hospital, suffering from an attack of nervous prostration. Dr. Nicholas Murray Butler, president of Columbia university, spoke on the subject: "Some Pressing Problems," for nearly an hour. His speech sounded the keynote of the purpose and aims of the convention, the profession of teaching in general, and was really the address that marked the regular opening of the convention proper and the beginning of the work in earnest.

Today is one of hard work for everybody, as besides the session at the exposition in the evening, at which Michael E. Sadler L.L.D., director of inquiries and reports, education office London, and Archbishop Ireland will speak, there are fourteen other meetings of the various departments. The national council finished its work yesterday, and the Indian department closes with its session this afternoon.

It's Impure Blood.

"What is it?" asks the mother as she notices the smooth skin of her child marred by a red or pimply eruption. It is impure blood, and the child needs at once to begin the use of Dr. Pierce's Golden Medical Discovery, the best and surest remedy for impurity of the blood. It entirely eradicates the poisons which corrupt the blood and cause disease. It cures scrofula, boils, pimples, eczema, salt-rheum and other eruptive diseases which are the direct result of impure blood. It enriches as well as purifies the blood.

"Dr. Pierce's medicine has not only benefited me greatly, but it has done wonders for my two sons," writes Mrs. M. H. Harkick, of Denmar, Oswego Co

No other medicine can show a record of cures of stomach ills equal to the Bitters. This is the best evidence of its value. It will cure Heartburn, Belching, Indigestion, Dyspepsia and Liver and Kidney Troubles. BE SURE TO TRY IT

JULY corn sold at ninety cents a bushel at Chicago Tuesday and John W. Gates, who two weeks ago bet \$20,000 that corn would sell for ninety cents on the Chicago board of trade during July won the money.

THE Chicago democrats who are in the habit of delivering their opinions by freight will be required to wait until after the strike among freight handlers is over unless they can show conclusively that their opinions are perishable stuff, which they could probably do by reference to history.

COLUMBUS is very much excited over the prospect of locating a new factory, but that town gets excited periodically because some promoters ask the commercial club there how much they will give for a new industry. A little later excitement dies down and they have the same number of factories they had before the promoters came around.

A REPORT was published a few days ago that Senator Beveridge would be a candidate for vice president in 1904. In the event of President Roosevelt's nomination for the presidency, but the senator makes positive statement that under no circumstance will he become a candidate for the vice presidency, that he is very well content with the work in the senate.

THE streets and alleys throughout the city need a general cleaning at once. Prompt action in this work may be the means of preventing much sickness. At this season of the year cleanliness is worth a great deal. OSTRICH TACTICS.

The Bird That Displayed as Much Cunning as an Apache Indian.

A well known hunter and taxidermist tells this story of personal experience in South Africa; it goes far beyond dispelling a slander that has long clouded the fair name of the ostrich:

Arriving at one of the monster hills of the white ant, I climbed upon it and raised my observation glasses to my eyes for a careful survey of the region. My first glance showed me, arising from the dead level of the plain before me, two objects, each having the form of a capital S. These I knew were the heads and necks of two ostriches. Though I believed they had sighted me, I remained immovable until their necks were suddenly drawn down to the level of the tops of the bushes which screened their bodies. Then I knew for a certainty that they were aware of my presence and would make a quick retreat.

"Without losing an instant's time I ran to the spot where the birds had been standing and found their tracks. These I followed as far as they were distinguishable and then took a course which I believed the birds would naturally follow. No sooner had I reached the top of the ravine than I saw one of the ostriches climbing the side hill. Estimating the distance, I took sight and fired. The ball passed immediately between his legs and struck in the sand of the side hill behind him.

"In an instant the bird darted away like an arrow in the direction of a small clump of bushes in the center of an open space. That he would pause behind this bush and then finally emerge on the other side seemed certain, and I aimed to catch him as he made a fresh start from behind the thorn. He flew over the sand at a terrific rate and reached the bushes. Then I waited fully five minutes for him to emerge from his hiding, with my rifle ready sighted so that I could pull the trigger the second he reappeared, but finally went forward to rout him out. When I reached the clump of bushes, an examination of the sand showed that the crafty old bird had shifted his course at a right angle, making the turn so suddenly that his feet had plowed up the sand for a distance of several inches. This wary tact had placed the bushes between the bird and myself, and he had made his way to new cover while I was innocently waiting for him on the other side of the ambush. An Apache Indian could not have executed this maneuver more cleverly, and I smiled at myself for having been foolish enough to believe the traditional story of how the silly ostrich buries his head in the sand and believes that he is thereby concealed."—Philadelphia Post.

Permanent Garrison.
London, July 9.—The permanent garrison in South Africa is to be 50,000 men under the command of Lieutenant General Lyttelton. Besides this force the system of having a large number of reservists scattered throughout the country, either on farms or in official positions, will be extensively followed. The reservists could be called upon for service in case of an emergency.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by W. F. Peter druggist.

JUST ESCAPED HANGING.

Dr. Mudd, Who Mended John Wilkes Booth's Broken Leg.

Mudd was a physician, and it was to his house that Booth had ridden on the night of his great crime. There his broken leg had been set, and there he had been secreted for one day. The doctor was an educated man of refined and dignified manner. He had never quite recovered from his surprise that any one should find fault with him for setting a broken bone for a stranger. He always asserted that he did not know Booth and was not aware at the time that Booth had committed a crime. But Mudd had been an ardent secessionist. He was accordingly sentenced to imprisonment for life.

It was a hard fate to be called upon for professional services by a wounded desperado and then narrowly to escape hanging for it. The trial and sentence were a terrible blow, from which Mudd never recovered. He had left a devoted wife at his home in Maryland, and his mental sufferings were so severe that he seemed always on the verge of insanity. He had at first been put to work with a wheelbarrow; but, having never done any manual labor, he was rapidly falling under the combined physical and mental strain. For this reason I directed that he be transferred to the prisoners' hospital as nurse.

There he made himself exceedingly useful, and there he might have remained had not his homesickness in an evil hour overcome his judgment. While a ship lay at the wharf he contrived to get aboard and secrete himself in the coal bunkers. He was of course discovered, and then he learned what he did not know before, that no ship was allowed to sail until it was ascertained that every prisoner was in his place. He was immediately placed in solitary confinement, where he remained several months.—McClure's Magazine.

PELLETS OF SNOW.

How They Flung and Drift in the Adirondack Region.

On a good driftraking day in the Adirondacks the snow comes not in the star shaped flakes that look so pretty when portrayed on a page of the dictionary, but in small pellets. These pellets are in shape like tiny white footballs usually, and they come rolling and tumbling down wind as if they had been "kicked for fair" by the half-back gods of the gale. And yet when they roll and tumble and bound they land lodging places, and as the idler gazes he sees them pile up in a wall on the crest of the road cut. Higher and higher grows the pile, forming at first a vertical wall, but before this has risen three inches it is seen to overhang the gulch.

Though round and easily rolled, these pellets in some way fit to each other as bricks would, until the overhang is perhaps a fifth as great as the elevation of the wall, and then, marvelous and impossible as it would seem to the unaccustomed observer, a lip forms on the crest of the wall, and soon it begins to droop and hang down. Wider and longer it grows, farther and farther it droops, until its shape is precisely like the lip formed on a huge wave which it breaks on a shoal water beach. Lip that are ten feet wide and hang down three feet clear of all, though but six or eight inches thick where they join the chin of the wall, are not uncommon. By what magic is it that these frozen, oblong pellets that go bounding along as merrily as footballs form into such a shape as that? Of course if the storm continues a time usually comes when the lips break off because of their great weight. And then no new lip forms to replace the lost one. The snow merely drops over into the lee of the wall and gradually fills the cutting.—Scribner's.

The Rose.

At all times the rose has enjoyed peculiar favor as a sacred flower. Mohammedan tradition says that when Saladin captured Jerusalem he refused to enter the shrine of the temple which had been converted into a church by the Crusaders till the walls had been thoroughly cleansed and purified with rosewater. A similar story is told of the Church of St. Sophia, at Constantinople, when transformed from a Christian place of worship to a Mohammedan mosque. The origin of the rose, according to Moslem tradition, is that the blood of the prophet sprang into new life in this glorious crimson flower. To this day when a Turk dies a rose lying on the ground he will raise it tenderly, kiss it reverently and deposit the frail blossom in some place of safety.

Fab's Name.

"But why did you name your baby after his most disreputable ancestor?" the surprised friend asked the young mother.

"Well, you see I expect him to prove on the former bearer of the name. Indeed, he hardly can help it because the ancestor was so very fat. If I had named him after the most distinguished member of the family, he might not have lived up to the name. Babies hardly ever do when they are named for great personages, as I have often noticed."—New York Press.

MURDER AND MUTINY

Here's a story That Has a Twang of the Olden Time.

Pensacola, Fla., July 9.—A sensational story of mutiny and murder on the high seas is told by Captain McDonald of the American schooner Mary Sanford, which arrived yesterday from Bluefields, Nicaragua. During the voyage A. G. Nicholson, the first mate, killed Fred Reed, a negro West Indian seaman, because he did not perform some duty in a manner to suit the mate.

Immediately after four West Indian seamen, countrymen of the dead man, resented the murder of Reed and threatened to hang Nicholson from a yard-arm. The captain, two mates and steward were the only white men on the vessel, and they managed to preserve order.

Getting In Battle Array.

Willemstad, Curacao, July 9.—News has reached here that General Castro, president of Venezuela, arrived at Barcelona, in the state of Fernandez, Venezuela, yesterday on board the steamer Ossun. Barcelona, which is three miles from the coast, is partly surrounded by the revolutionists, who are said to be quite numerous. President Castro does not intend to attack the enemy before next Sunday.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. JOHN MORGAN'S RAID

Thirty-ninth Anniversary of That Historic Invasion.

Today marks the thirty-ninth anniversary of Morgan's raid at New Albany. Gen. Morgan crossed the Ohio river at Brandenburg, Ky., the day before, going thence to Corydon. He left Corydon that afternoon for New Albany with the intention, it was afterward learned, of crossing the river at that point and blowing up the locks of the Portland canal, thus crippling the river transportation of supplies to the Federal troops in the South. New Albany, however, was pretty well fortified, and Gen. Morgan, after camping his army at Edwardsville, five miles back of the city, sent several of his scouts to the city to ascertain whether or not it would be advisable to venture there. He instructed the scouts that in case they found the city pretty well fortified to notify him by firing some building. The scouts fired the old Sweet Gum stables, on West Main street, at that time the largest frame building in the city, and Gen. Morgan headed his troops for Salem, continuing through the southern portion of the state, and giving the Hoosiers the only real taste of warfare they experienced during the war.

Schwartz School News

The school was honored with a visit on Tuesday morning by our school trustees, Dr. G. G. Graessle and Mr. C. C. Frey. We hope they will call again.

The students are unanimously of the opinion that the Laurel street school is the coolest place in town. We think so too.

The following pupils have recently enrolled and are doing good work: Amy Koege, Will Clark, Walter Beck, Walter Horst, Dale Patrick and Helena Husted.

If Alma Reich, Walter Hoskins, Charles Harvey, Edith Spray, Perry Vogel and Vallie Woensner keep up the records they have made so far in addition, they will become the best expert accountants in Seymour.

If Miss Anna Massman keeps on at her present rate of improvement, she will make an excellent touch typewriter. She is a hustler and is doing very creditable work in shorthand.

Miss Kate Schulz, the popular shorthand teacher, and Mr. Charles Harvey, of Cleveland, Ohio, are musical artists, vocally, of high class ability. If there are more "song-birds," let them make it known.

Prof. Schwartz, who is rapidly winning a place in the hearts of all the students, can not sing, but he can add up a column of figures more quickly than the next one, and is succeeding in getting his students to be par excellence with himself.

Miss Edith Spray is one of the hardest working pupils we have ever seen. She is making most excellent progress in all three courses, and will make an invaluable helper in any business establishment.

One of the pluckiest students we have met with is Tevis Carter, who, after working in his father's office all day long, takes the Bookkeeping Course after supper. Such boys are bound to succeed as business men.

Intuitive ability and a well trained observation makes Dale Whitcomb an ideal student in all three courses. He is well up in current literature, and is an interesting conversationalist.

Avis Hoadley is a "sticker" and is making a great success of the work.

Carl Oesting has ambitions to own a large manufacturing plant like the one in which his father is connected in the capacity of expert bookkeeper.

Homer Shannon is a very quiet student and an excellent worker; so is Robert Blair.

Miss Alma Reich is also very quiet, and the grade of work she does speaks for itself.

The Lawrenceburg Wreck.

Concerning the wreck on the B. & O. S-W. at Lawrenceburg Tuesday morning in which Engineer Moses and Fireman Lloyd, of this city, had a narrow escape, the Cincinnati Commercial Tribune says:

"Passenger train No. 15, B. & O. S-W. bound for Louisville, was derailed at the west end of town yesterday morning. It had left the depot a few seconds before, and was getting under good headway when Engineer Dave Moses discovered the target signal against him. It was too late and the engine and baggage car were derailed. Fireman William Lloyd leaped out of the cab window, sustaining a sprained ankle and other slight injuries. The wrecking crew worked two and one-half hours before the train was righted. In the meantime the other trains ran by way of Greensburg, over the Big Four Railway."

In inclement weather the man who exposes himself bids for a severe cold in the head and usually gets it. And the cold neglected or improperly treated becomes nasal catarrh, a disease as obstinate as it is offensive. Don't waste time with "medicines" that day and irritate the membrane, but cure yourself speedily with Ely's Cream Balm, the recognized specific for catarrh. Price 50 cents. Sold by druggists and by Ely Brothers, 56 Warren street, New York.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. You can get this reliable remedy at The Peter Drug Co., Regular size 75 cts. Get Green's Special Almanac.

KIDNEY TROUBLES.

Mrs. Louise M. Gibson Says That This Fatal Disease is Easily Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I felt very discouraged two years ago, I had suffered so long with kidney troubles and other complications, and had taken so much medicine without relief that I began to think there was no hope for me. Life looked so good to me, but what is life without health? I wanted to be well.

MRS. LOUISE M. GIBSON.

"Lydia E. Pinkham's Vegetable Compound cured me and made me well, and that is why I gladly write you this, and gladly thank you; six bottles was all I took, together with your Pills. My headache and backache and kidney trouble went, never to return; the burning sensation I had left altogether; my general health was so improved I felt as young and light and happy as at twenty."—Mrs. LOUISE GIBSON, 4813 Langley Ave., Chicago, Ill.—\$5000 forfeit if above testimonial is not genuine.

If you feel that there is anything at all unusual or puzzling about your case, or if you wish confidential advice of the most experienced, write to Mrs. Pinkham, Lynn, Mass., and you will be advised free of charge. Lydia E. Pinkham's Vegetable Compound has cured and is curing thousands of cases of female trouble.

Tobacco water will destroy bugs and worms on rosebushes.

Only well rotted manure should be allowed to come in contact with the roots of trees.

Don't try to transplant a cyclamen after the bulb has begun to throw up green leaves. If you do, you will lose your bulb.

Vines may be set in the spring and also in the fall. It is said the clematis does best if set in the latter season, while the wistaria, honeysuckle and Japan ivy are by preference to be planted in the spring.

One reason why plants often do not succeed in window culture is the want of moisture in the air. Anything that tends to supply this lack is so much gained. On this account plants often do best in the kitchen window.

The petals of a single flower fall sooner than those of a double one for the reason that the inner petals are transformed more slowly and retain the power of adhesion they need when performing their original function.
